1 Create a Document

Documents are **groups of pages** connected through:

- a **sidebar**
- **previous/next navigation**
- **versioning**

1.1 Create your first Doc

Create a Markdown file at `docs/hello.md`:

```
docs/hello.md

# Hello

This is my first Docusaurus document!
```

A new document is now available at <http://localhost:3000/docs/hello>.

1.2 Configure the Sidebar

Docusaurus automatically **creates a sidebar** from the `docs` folder.

Add metadata to customize the sidebar label and position:

```
docs/hello.md

---

sidebar_label: 'Hi!'

sidebar_position: 3

---

# Hello

This is my first Docusaurus document!
```

It is also possible to create your sidebar explicitly in `sidebars.js`:

```
export default {  
  tutorialSidebar: [  
    'intro',  
    'hello',  
    {  
      type: 'category',  
      label: 'Tutorial',  
      items: ['tutorial-basics/create-a-document'],  
    },  
  ],  
};
```
